SUPPORT STAFF APPRAISAL POLICY

1. Purpose

To help staff perform their roles effectively, and to recognise their achievements, a rigorous and constructive annual appraisal process, linked to individual development needs, is important.

This appraisal policy sets out the framework for a clear and consistent assessment of the overall performance of all members of the school's support staff. It also sets out how the school will go about supporting development within the context of the school's plan for improving educational provision and performance for our children and the arrangements that will apply when staff fall below the level of competence that is expected of them to be successful in their role. It should not be used as a mechanism for invoking the capability procedure.

2. Scope

The policy applies to all members of support staff employed by the school or local authority, except those on contracts of less than one term.

3. Core Principles

This policy aims to create a performance management framework to ensure that all employees:

- have an annual appraisal meeting
- know what is expected of them in terms of the standard of their performance from the beginning of their employment
- know what is required of them in order to do their job effectively
- receive recognition for their achievements
- receive feedback on a regular basis which aims to improve and develop their performance
- identify areas where improvement is needed
- identify with their line manager their learning and development needs
- plan their career development where possible

4. Appointment of Appraisers

The head teacher will decide who will conduct appraisals for members of support staff. It could be a member of the Senior Leadership Team, or another appropriate line manager referred to in this document as 'the manager'.

5. Appraisal Period

The appraisal period will normally run for twelve months, with a short review at 6 months.

6. Setting Objectives

Objectives for each member of the support staff will be set at the start of each appraisal period. The objectives will take account of the following:

- a. relevant national and/or school determined standards, competencies, skills and behaviours.
- b. the individual's job description.
- c. the individual's CPD requirement.

The objectives will be SMART:

Specific – precise and unambiguous

Measureable – Describes what success will look like in ways that can be measured

Achievable

Relevant - the objective will be within the remit of the individual's job

Timed – give a date by when the objective should be achieved or reviewed.

Objectives will reflect a balance between ongoing work and new areas of work. The number of objectives can depend on size and scope of the role.

7. The Appraisal Meeting.

Employees should be given at least two weeks' notice of the appraisal meeting to enable them to prepare for the meeting. The generic skills audit form may assist with this preparation (Appendix 1)

The appraisal meeting will cover:

- A review of performance against the previous period's agreed objectives
- A frank and open discussion on areas that have gone well and those where improvement/development is needed.
- A discussion about any training development undertaken in the previous period and how this has been applied at work
- Setting the initial objectives for the next review period ensuring they are appropriate to the role and the needs of the school.
- Agreeing future development needs
- Recording of the above on the staff appraisal form (appendix 2)

8. Observation

Observation in the workplace may also be used as part of the appraisal process. All observations will be carried out in a professional manner by those with knowledge of the employee's work. At least one week's notice will be given of any observations taking place under this procedure.

9. Assessment

At the end of the appraisal period, the manager will summarise individual performance and contribution. This needs to be evidence based. The manager will then be required to add a rating for overall performance. The key to their ratings is below:

Ratings		Other action
Exceeds expectations	Demonstrates performance significantly above the expected standards.	Identify for potential and talent management actions
Meets expectations	Consistent performance and achieving all standards.	Support and identify further development opportunities
Meets some expectations	Performance does not meet all the acceptable standards.	A six month development plan will be put in place and a review held at the end of this period
Does not meet expectations	Performance does not meet the acceptable standards.	<ul style="list-style-type: none">• Immediately identify improvement areas• Set and implement development plan• Set dates for regular review and monitoring of plan

The employee can also add comments about their performance and the appraisal and will be provided with a copy of the final version of the form.

10. Monitoring and Evaluation

The Governing Body and Head teacher will monitor the operation and effectiveness of the school's support staff appraisal arrangements.

11. Retention

The Governing Body and Headteacher will ensure that all written appraisal records are retained in a secure place for six years and then destroyed.

12. Confidentiality

The conversation in the appraisal interview is private and the outcome of the appraisal will be recorded on the appraisal form. The appraisal form will be signed by the manager and the employee and the completed form may be shared with the head teacher.

Some information on the form may be anonymised and used to help create team or school learning/development plans.

13. Disagreements

Where there are disagreements about performance or objectives, support staff can record their views on the appraisal record form. In addition, they must raise their concerns with the manager who has conducted the appraisal within ten working days. Where issues cannot be resolved, concerns should be raised through the school's grievance procedure. Staff should submit their grievance at the Formal Stage of the procedure as this Policy document provides scope for an initial informal stage.

Where a member of staff raises a formal grievance during the appraisal process, the appraisal process may be temporarily suspended in order to address the grievance. Where the grievance and appraisal cases are related it may be more appropriate to deal with both issues concurrently.
